Hardware Specifications

End users are encouraged to use NEMRC as a source for hardware information. NEMRC can facilitate your hardware purchases and provide maintenance and network support.

NEMRC Recommends

For Workstations: Any supported up to date version of Windows.

For Servers: NEMRC Recommends using a cloud based server such as NEMRC Cloud Services. Clients that want to run their own server can. NEMRC only recommends accessing NEMRC using the remote desktop protocol. NEMRC can provide information on best practices to those who wish to setup their own remote desktop server.
