Compare Any Grand List to any other Grand List without exiting the Grand List entity you are currently logged into. The default will be the Current Grand List data.

You can choose a Copy within that Grand List entity to compare against another copy as seen below. In this example we are comparing the 'Town of Anytown' grand list 'Before Grievance Hearings' copy against 'Town of Anytown' grand list 'April 1st' copy.

Next select the report you would like to compare. For example 'Real' value comparison. This will show you all of the parcels that you changed the 'Real' value between 'Grievance Hearings' and 'April 1st'. Click the 'Preview' or 'Print' button to produce your report.

The grand list selected on the 'Compare From' will be displayed on the left. And the 'Compare To' will always show on the 'Right'. In this example we are comparing Real values. So the 'Real' value on the left side represents the 'Before Grievance Hearings'. On the right is the 'Real' value as it was on the 'April 1st'
