

Your Data On Line

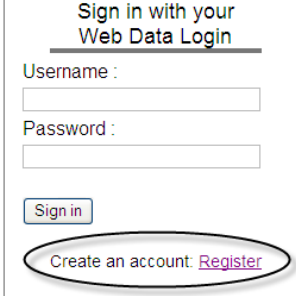

You can now put any of your NEMRC and MSOL data on line using NEMRC's web search tool.

- **Full control of your data on line:**
 - Select what NEMRC programs you want available on the internet. Including MSOL CAMA data.
 - Select how often your data is updated
 - Select what fields are available
 - Select which fields can be searched by the end users
 - View who is accessing the data
- **End Users**
 - Search data
 - Print reports / Export data
 - Can only view data that you selected to be available on line
 - View any town that is enrolled for on line searches.

Here is how the Municipality begins.

1. You will contact NEMRC and inform us that you would like to use this on line tool.
NEMRC will provide you with a link that you will use to access the appropriate website.

The first time you log in you will need to 'Create an Account' Click on the 'Register' link circled

Sign in with your
Web Data Login

Username :

Password :

Create an account: [Register](#)

Then fill in all the required fields that appear on the screen as shown on the right. Click the 'Register' button when you are finished. You will be sent an email confirming that you registered successfully. You will use the link in that email to log into your account the first time. You can modify your account information in the future as needed.

All NEMRC programs will be shown in this list. In this example you see this town has 3 NEMRC programs available to place on line.

Animal Licensing, MSOL Cama, and Grand List. At this time only Animal Licensing and Grand list have been selected to be viewed on line.

The options below will be explained in more detail on the next page.

- If you click on the 'Field Settings' label to the right of the program name it allows you to select which fields will be available to view on line.
- Click the 'Search History' label and it will show you all users that have logged on and looked at the data for that NEMRC program.
- 'Update Contract Settings' button will allow you to add/remove and edit individual NEMRC program settings.

Web Data My Account

Edit search and view settings for the Grand List module.
A maximum 6 fields is recommended for **Searchable** and **Table** view fields.

Next a list of all the fields in that program will appear.

Select which fields you want users to be able to search for records.

Select which fields will show up once users enter their search criteria.

Select all of the fields you want the users to see when they view the full detail of a record. Remember you need to be selective and not provide data that confidential. IE: 911 numbers in certain cases.

Click the submit button once you are finished making your selections. You can return to this page at anytime and modify your selections at anytime.

You will get a confirmation that your settings for this program have been saved. Click the link seen here and continue to modify more programs or 'Log out' of your account.

Update Successful [Back to My Account](#)

Your Data On Line

End User Section

Your Town will place a link on the Towns website that the end users can click on to access your NEMRC on line search tool. This link will bring them to the log in window just like the one seen on page 1. Anyone using the data will have to register in order to use this tool. Once they have registered they can enter their username and password. As seen below.

**Sign in with your
Web Data Login**

Username :

Password :

Create an account: [Register](#)

They will be brought to a screen where they can:

- Select which data they want to search. IE: grand list.
- Select a different town using the drop down.

Click the 'Submit' button when ready to begin searching data.
